

Lutheran Education Accreditation Requirements

Staff in Lutheran education play a critical role in improving student learning outcomes and supporting the identity and culture of Lutheran education. So that staff are well equipped for their role, Lutheran Education Australia provides pathways for the preparation and ongoing professional learning and formation of staff. The diagram below provides an overview of these accreditation* requirements.

* Accreditation is renewable every 5 years. For detailed information on accreditation/renewal requirements and opportunities for recognition of equivalent learning (REL), search the relevant learning pathway above on the LEA website.
